

Laptop Keyboard

Materials You Should Prepare For Cleaning The Laptop Keyboard

Cotton swabs

Cosmetic foam rubber cleaning pads (use only with naphtha (lighter fluid), NOT alcohol)

Paper towels

Rubbing alcohol

Water

Lighter fluid (naphtha)

Fine tipped tweezers

Scissors

Kitchen strainer

Household cleaner, Windex or equivalent

Super Lube Dry Film spray (critical - DO NOT SUBSTITUTE !) K-Mart automotive.

This is a PTFE (teflon) based lubricant which dries perfectly DRY and is ideally suited for this application.
