

The world's largest vehicle sunroof manufacturer with operations in China, Japan, Korea, several E.U. countries, Mexico, and the U.S.A., depends on Super Lube® as the prime lubricant for all their roofing systems! They currently design, develop, and manufacture sunroofs and other innovative vehicle roofing systems for BMW, Volkswagen, Volvo, Chrysler, General Motors, Nissan, and more!

They offer the highest quality products with a 3-year warranty. They currently use the 40 pound pail of Synthetic Railroad Grease as they need to provide their customers with a maintenance free sunroof. The sliding bars are lubricated with the Railroad Grease prior to final assembly.
