i use to use both but they are expensive. the oil has lasted me a long time, im still on my first bottle. the grease is almost ten bucks and i got two reels out of it. **i recently switched to super lube grease and i love it. you get 4 times as much for 5 dollars less and i truely believe it is a better grease.** i still use the hot sauce oil, its verry thin and a little goes a long way. you can get super lube at ace hardware, if they dont stock it theyll order it for you as they did for me.

Super Lube® Grease with SYNCOLON® (PTFE) contains Polytetrafluoroethylene(PTFE) which is one of the most slippery surfaces (lowest coefficient of friction) known to man.

- Multi purpose lubricant w/Syncolon (PTFE)
- Prevents rust & corrosion while reducing friction
- Repels dirt, dust, grit and grime
- Dielectric
- Impervious to salt water
- USDA authorized, rated H-1
- Temperature range -45F to +450F
- Clear, non-toxic

Hot sauce grease is too fluid and it drips quickly almost like oil.
super lube is better
