

SYNCO CHEMICAL CORPORATION

Product Change Notification Letter

February 2021

Dear Valued Customers,

This letter is to inform you that all products manufactured by Synco Chemical Corporation containing Syncolon® (PTFE) will have a very slight darkening in color. The change in color is due to a process change by the manufacturer of our polytetrafluoroethylene (PTFE).

This process change was necessary to comply with the (EU) 2017/1000, (EU) 2019/2021, and Stockholm Convention (POP). These regulations limit the trace content of perfluorooctanoic acid (PFOA).

Batches with a Julian date code of 21036 and later will exhibit the coloring.

Very truly yours,

A handwritten signature in black ink that reads "Kevin Wall".

Kevin Wall
Regulatory / Quality Control Manager
