Super Lube® Multi-Purpose Synthetic Oil with Syncolon® (PTFE) (High Viscosity)

Super Lube® Synthetic Oil with Syncolon® (PTFE) is a blend of premium oils, Syncolon® (PTFE) micron sized powder and powerful additives. It provides superior lubrication protection against friction, wear, rust and corrosion. Machinery lasts longer, downtime is reduced, and productivity is increased. Super Lube® Oil with Syncolon® (PTFE) is safe on metal, rubber, plastic, wood, leather, fabric and painted surfaces.

NSF rated H1 for incidental food contact.

*Also available with UV additive for traceability

Super Lube® Synthetic Lightweight Oil (Low Viscosity) ISO 68

Super Lube® Synthetic Lightweight Oil has an operating temperature of -40°F to 500°F. It is ideal for misting, dripping, spindle oil applications, and as a food-grade chain lubricant and rust inhibitor. It is an excellent electrical motor and sintered bearing lubricant.

NSF rated H1 for incidental food contact.

*Also available as Extra Lightweight Oil ISO 32

Super Lube® Air Tool Pneumatic Lubricant

Super Lube® Air Tool Pneumatic Lubricant is formulated to meet the special requirements of industrial, commercial, household and agricultural tools. It lubricates, absorbs water and minimizes ice buildup and frost in air tools. Blended rust and corrosion inhibitors and a synthetic base fluid oil reduce wear and allow operation of air tools at temperatures as low as -40°F.

NSF rated H1 for incidental food contact.

Super Lube® Synthetic Gear Oil - ISO 150, 220, 320, 460, 680

Super Lube® Synthetic Gear Oil is a clean, translucent oil with superior anti-wear and extreme pressure properties, suitable for lubricating spur, helical, herringbone, rack and pinion, straight and spiral bevel, and worm gears. Excellent oxidation resistance, rust and corrosion protection and the ability to readily separate from water, make it ideally suited for chain drives, worm gears, and gear boxes.

NSF rated H1 for incidental food contact.

Super Lube® is a multi-purpose, synthetic lubricant that contains Syncolon® (PTFE)

Silicone Dielectric Grease is a non-curing silicone compound, clean and clear in appearance, exhibits high dielectric strength, and is ideal for sealing, protecting and insulating electrical components and connectors. Super Lube® Silicone Dielectric Grease is waterproof, compatible with the majority of rubber and plastic compounds, and protects against moisture and other contaminants in electrical connections. NSF rated H1 for incidental food contact.

Super Lube® Silicone Lubricating Grease with Syncolon® (PTFE)

Super Lube® Silicone Lubricating Grease with Syncolon® (PTFE) has a wider operating temperature range than most petroleum-based greases and is compatible with the majority of rubber and plastic compounds. Super Lube® Silicone Lubricating Grease is ideal for lubricating O-rings and seals when the rubber compound is not known. This product will not harden, dry out or melt. NSF rated H1 for incidental food contact.

Super Lube® Multi-Purpose Synthetic Grease with Syncolon® (PTFE)

Super Lube® Grease is a patented synthetic, multi-purpose lubricant with Syncolon® (PTFE). Synthetic base fluids and the addition of Syncolon® micro powders combine to form a premium lubricant that provides protection against friction, wear, rust and corrosion over a temperature range of -45°F to 450°F. Super Lube® Grease is NLGI Grade 2, and will not run, drip, melt or separate. NSF rated H1 for incidental food contact.

Super Lube® Super Kleen Cleaner/Degreaser is an aqueous, phosphate free, industrial, multi-purpose alkaline solution formulated for cleaning and degreasing virtually any surface. Safe for use on aluminum, formica, stainless steel, rubber, concrete floors, carpets, ovens, fans, woodwork and tile. Use full strength or dilute up to 10 parts water as needed. NSF rated A1, safe to use in and around food processing areas, where its use is not intended for direct food contact.
Silicone Dielectric Grease is a non-curing silicone compound, clean and clear in appearance, exhibits high dielectric strength, and is ideal for sealing, protecting and insulating electrical connections. Super Lube® Silicone Dielectric Grease is waterproof, compatible with the majority of rubber and plastic compounds, and protects against moisture and other contaminants in electrical connections. NSF rated H1 for incidental food contact.

Super Lube® Silicone Lubricating Grease is ideal for lubricating O-rings and seals when the rubber compound is not known. This product will not harden, dry out or melt. NSF rated H1 for incidental food contact.

Super Lube® Silicone Lubricant (Aerosol) is a liquid aerosol form of Silicone Lubricating Grease. This product is ideal for lubricating O-rings, seals, and components where the rubber compound is unknown. It is non-curing, non-hardening, non-toxic, non-corrosive, and non-conductive. It is ideal for use in electrical equipment and on metal, glass, rubber and most plastics. The dry coating provides a low coefficient of friction which gives excellent lubrication and release properties. Super Lube® Dri-Film can be used on wood, paper, glass, rubber, fabric, leather, vinyl, metal and most plastics not under stress. It has excellent thermal and chemical stability, forming a natural insulating barrier when used on electronics. NSF rated H1 for incidental food contact.

Super Lube® Multi-Purpose Synthetic Lubricant (Aerosol) is a multi-purpose lubricant consisting of Super Lube® Grease in a solvent carrier, that cleans and penetrates the components to be lubricated, then the solvent evaporates leaving behind a film of synthetic grease which provides long lasting lubricating protection. NSF rated H1 for incidental food contact.

Super Lube® Super Kleen Cleaner/Degreaser is an aqueous, phosphate-free, industrial, multi-purpose alkaline solution formulated for cleaning and degreasing virtually any surface. Safe for use on aluminum, formica, stainless steel, rubber, concrete floors, carpets, ovens, fans, woodwork and tile. Use full strength or dilute up to 10 parts water as needed. NSF rated A1, safe to use in and around food processing areas, where its use is not intended for direct food contact.
