SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
- Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

1.2 Relevant identified uses of the substance or mixture and uses advised against
No further relevant information available.

1.3 Application of the substance / the mixture
Lubricant

1.3 Details of the supplier of the Safety Data Sheet
Manufacturer/Supplier:
Synco Chemical Corporation
24 DaVinci Dr., P.O. Box 405
Bohemia, NY 11716
Telephone: 631-567-5300
Email: info@super-lube.com

Further information obtainable from: Product Safety Department

1.4 Emergency telephone number:
CHEMTREC
1-800-424-9300 (US/Canada)
+01 703-527-3887 (International)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EU) No 2015/830

GHS02 flame

GHS08 health hazard

Repr. 2  H361f  Suspected of damaging fertility.
STOT RE 2  H373  May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.

GHS09 environment

Aquatic Chronic 2  H411  Toxic to aquatic life with long lasting effects.

GHS07

Skin Irrit. 2  H315  Causes skin irritation.
STOT SE 3  H336  May cause drowsiness or dizziness.
Asp. Tox. 1  H304  May be fatal if swallowed and enters airways.

(Contd. on page 2)
· **Information concerning particular hazards for human and environment:**

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

**Warning!** Pressurised container.

· **Classification system:**

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.

· **Additional information:** 0 percent of the mixture consists of component(s) of unknown toxicity

---

**2.2 Label elements**

· **Labelling according to Regulation (EC) No 1272/2008**

The product is classified and labelled according to the CLP regulation.

· **Hazard pictograms**

![Pictograms](image)

GHS02 GHS07 GHS08 GHS09

· **Signal word** Danger

· **Hazard-determining components of labelling:**

n-hexane

· **Hazard statements**

H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.  
H315 Causes skin irritation.  
H361f Suspected of damaging fertility.  
H336 May cause drowsiness or dizziness.  
H373 May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.  
H411 Toxic to aquatic life with long lasting effects.
Precautionary statements

P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P251 Pressurized container: Do not pierce or burn, even after use.
P260 Do not breathe mist/vapours/spray.
P281 Use personal protective equipment as required.
P202 Do not handle until all safety precautions have been read and understood.
P312 Call a POISON CENTER/doctor if you feel unwell.
P302+P352 IF ON SKIN: Wash with plenty of water.
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Additional information:
Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.
Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking.

Hazard description:

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.
vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:

<table>

 SECTION 4: First aid measures

4.1 Description of first aid measures

General information:
Take affected persons out into the fresh air.
Immediately remove any clothing soiled by the product.
Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation:
Supply fresh air; consult doctor in case of complaints.
Provide oxygen treatment if affected person has difficulty breathing.
In case of unconsciousness place patient stably in side position for transportation.

After skin contact:
Immediately wash with water and soap and rinse thoroughly.
If skin irritation continues, consult a doctor.
In cases of frostbite, rinse with plenty of water. Do not remove clothing.

After eye contact:
Remove contact lenses if worn.
Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:
Unlikely route of exposure.
Rinse out mouth and then drink plenty of water.
Do not induce vomiting; call for medical help immediately.
A person vomiting while laying on their back should be turned onto their side.

4.2 Most important symptoms and effects, both acute and delayed

Headache
Breathing difficulty
Frostbite
Dizziness
Coughing
Irritant to skin and mucous membranes.
Slight irritant effect on eyes.

Hazards
Vapours have narcotic effect.
Danger of disturbed cardiac rhythm.
Condition may deteriorate with alcohol consumption.
Danger of impaired breathing.
May cause neurotoxic effects.
Suspected of damaging fertility or the unborn child.

4.3 Indication of any immediate medical attention and special treatment needed

Later observation for pneumonia and pulmonary oedema.
Treat frost-bitten areas appropriately.
If swallowed or in case of vomiting, danger of entering the lungs.
Medical supervision for at least 48 hours.
If necessary oxygen respiration treatment.

**SECTION 5: Firefighting measures**

- **5.1 Extinguishing media**
  - Suitable extinguishing agents:
    - Alcohol resistant foam
    - Carbon dioxide
    - Fire-extinguishing powder
    - Gaseous extinguishing agents
  - **For safety reasons unsuitable extinguishing agents:** Water

- **5.2 Special hazards arising from the substance or mixture**
  - Formation of toxic gases is possible during heating or in case of fire.
  - Danger of receptacles bursting because of high vapour pressure when heated.

- **5.3 Advice for firefighters**
  - **Protective equipment:**
    - Wear self-contained respiratory protective device.
    - Wear fully protective suit.
  - **Additional information**
    - Eliminate all ignition sources if safe to do so.
    - Cool endangered receptacles with water fog or haze.
    - Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

**SECTION 6: Accidental release measures**

- **6.1 Personal precautions, protective equipment and emergency procedures**
  - Use respiratory protective device against the effects of fumes/dust/aerosol.
  - Ensure adequate ventilation.
  - Wear protective equipment. Keep unprotected persons away.
  - Keep away from ignition sources.
  - Protect from heat.

- **6.2 Environmental precautions:**
  - Do not allow product to reach sewage system or any water course.
  - Inform respective authorities in case of seepage into water course or sewage system.

- **6.3 Methods and material for containment and cleaning up:**
  - Allow to evaporate.
  - Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders).
  - Send for recovery or disposal in suitable receptacles.
  - Dispose contaminated material as waste according to item 13.

- **6.4 Reference to other sections**
  - See Section 7 for information on safe handling.
  - See Section 8 for information on personal protection equipment.
  - See Section 13 for disposal information.
SECTION 7: Handling and storage

7.1 Precautions for safe handling
- Open and handle receptacle with care.
- Use only in well ventilated areas.
- Keep away from heat and direct sunlight.

Information about fire - and explosion protection:
- Do not spray onto a naked flame or any incandescent material.
- Keep ignition sources away - Do not smoke.
- Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.
- Emergency cooling must be available in case of nearby fire.
- Keep respiratory protective device available.

7.2 Conditions for safe storage, including any incompatibilities
- Storage:
  - Requirements to be met by storerooms and receptacles:
    - Store in a cool location.
    - Observe official regulations on storing packagings with pressurised containers.
    - Avoid storage near extreme heat, ignition sources or open flame.
  - Information about storage in one common storage facility:
    - Store away from oxidising agents.
  - Further information about storage conditions:
    - Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.
    - Protect from heat and direct sunlight.
    - Storage Temperatures: <122 °F / <50 °C.

7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

**Additional information:** The lists valid during the making were used as basis.

- **8.2 Exposure controls**
  - **Personal protective equipment:**
    - **General protective and hygienic measures:**
      The usual precautionary measures are to be adhered to when handling chemicals.
      Immediately remove all soiled and contaminated clothing.
      Wash hands before breaks and at the end of work.
      Do not inhale gases / fumes / aerosols.
      Avoid contact with the eyes and skin.
      Pregnant women should strictly avoid inhalation or skin contact.
    - **Respiratory protection:**
      Wear appropriate NIOSH respirator when ventilation is inadequate and occupational exposure limits are exceeded.
      Use suitable respiratory protective device in case of insufficient ventilation.
Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Safety glasses

Body protection:

Not required under normal conditions of use.
Protection may be required for spills.

Limitation and supervision of exposure into the environment

Avoid release to the environment.

Risk management measures

See Section 7 for additional information.

No further relevant information available.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

General Information

Appearance:

Form: Aerosol
Colour: Transparent
Odour: Solvent-like
Odour threshold: Not determined.

pH-value: Not determined.

Change in condition

Melting point/Melting range: Not applicable, as aerosol.
Boiling point/Boiling range: Not applicable, as aerosol.

Flash point: -104 °C
Extremely flammable aerosol.

Flammability (solid, gaseous): Not applicable.
Auto/Self-ignition temperature: Not determined.
SECTION 10: Stability and reactivity

10.1 Reactivity
10.2 Chemical stability
   10.3 Possibility of hazardous reactions
      Extremely flammable aerosol.
      Can react violently with oxygen rich (oxidising) material. Danger of Explosion.
      Develops readily flammable gases/fumes.
      Danger of receptacles bursting because of high vapour pressure when heated.
      Reacts with peroxides and other radical forming substances.
      Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.

10.4 Conditions to avoid
      Keep ignition sources away - Do not smoke.
      Store away from oxidising agents.

10.5 Incompatible materials: Oxidizing agents

10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide
SECTION 11: Toxicological information

- 11.1 Information on toxicological effects
  - Acute toxicity:
    - LD/LC50 values relevant for classification: None.
  - Primary irritant effect:
    - on the skin: Irritant to skin and mucous membranes.
    - on the eye: Slight irritant effect on eyes.
    - Sensitisation: No sensitising effects known.
  - Subacute to chronic toxicity:
    - May be fatal if swallowed and enters airways.
    - Suspected of damaging fertility or the unborn child.
    - May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.
  - Additional toxicological information:
    - The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
      - Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.
      - Toxic and/or corrosive effects may be delayed up to 24 hours.
    - Acute effects (acute toxicity, irritation and corrosivity): Vapours have narcotic effect.
    - Repeated dose toxicity: May cause damage to organs through prolonged or repeated exposure.
    - CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction):
      - Repr. 2

SECTION 12: Ecological information

- 12.1 Toxicity
  - Aquatic toxicity: Toxic for aquatic organisms
  - 12.2 Persistence and degradability The organic portion of the product is biodegradable.
  - 12.3 Bioaccumulative potential Does not accumulate in organisms.
  - 12.4 Mobility in soil No further relevant information available.
  - Ecotoxical effects:
  - Remark: Toxic for fish
  - Additional ecological information:
  - General notes:
    - This statement was deduced from the properties of the single components.
    - Do not allow product to reach ground water, water course or sewage system.
    - Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.
  - 12.5 Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.
  - 12.6 Other adverse effects No further relevant information available.
SECTION 13: Disposal considerations

· 13.1 Waste treatment methods
  · Recommendation
    Contact waste processors for recycling information.
    The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

· Uncleaned packaging:
  · Recommendation: Disposal must be made according to official regulations.

SECTION 14: Transport information

· 14.1 UN-Number
  · DOT, ADR, IMDG, IATA
    UN1950

· 14.2 UN proper shipping name
  Limited Quantity for packages less than 30 kg (66 lb) and inner packagings less than 1 L (0.3 gal).
  · DOT, IATA
    Aerosols, flammable
  · ADR
    1950 AEROSOLS, ENVIRONMENTALLY HAZARDOUS
    AEROSOLS, MARINE POLLUTANT

· 14.3 Transport hazard class(es)
  · DOT
    Class 2.1
    Label 2.1
  · ADR
    Class 2.1
    Label 2.1
  · IMDG
    Class 2.1

(Contd. on page 12)
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- Carcinogenic Categories

<table>
<thead>
<tr>
<th>IARC (International Agency for Research on Cancer)</th>
</tr>
</thead>
<tbody>
<tr>
<td>9002-84-0</td>
</tr>
</tbody>
</table>

- TLV (Threshold Limit Value established by ACGIH)

None of the ingredients are listed.

- Other regulations, limitations and prohibitive regulations

- Substances of very high concern (SVHC) according to REACH, Article 57

None of the ingredients are listed.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

relevant phrases

H220 Extremely flammable gas.
H225 Highly flammable liquid and vapour.
H280 Contains gas under pressure; may explode if heated.
H304 May be fatal if swallowed and enters airways.
H315 Causes skin irritation.
H336 May cause drowsiness or dizziness.
H361f Suspected of damaging fertility.
H373 May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.
H411 Toxic to aquatic life with long lasting effects.
