SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier
- Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol
- 1.2 Relevant identified uses of the substance or mixture and uses advised against
  No further relevant information available.
- Application of the substance / the mixture
  Penetrating oil
  Lubricant
- 1.3 Details of the supplier of the Safety Data Sheet
  Manufacturer/Supplier:
  Synco Chemical Corporation
  24 DaVinci Dr., P.O. Box 405
  Bohemia, NY 11716
  Telephone: 631-567-5300
  Email: info@super-lube.com
- 1.4 Emergency telephone number:
  ChemTel
  1-800-255-3924 (US/Canada), 1-813-248-0585 (International), 1-300-954-583 (Australia),
  0-800-591-6042 (Brazil), 400-120-0751 (China), 000-800-100-4086 (India), 800-099-0731 (Mexico)

SECTION 2: Hazards identification

- 2.1 Classification of the substance or mixture
  Classification according to Regulation (EU) No 2015/830
  GHS02 flame
  GHS09 environment
  Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects.
  GHS07
  Skin Irrit. 2 H315 Causes skin irritation.
  STOT SE 3 H336 May cause drowsiness or dizziness.
  Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.

(Contd. on page 2)
Information concerning particular hazards for human and environment:
The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.
Warning! Pressurised container.

Classification system:
The classification is according to the latest editions of the EU-lists, and extended by company and literature data.
The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.

Additional information: 0 percent of the mixture consists of component(s) of unknown toxicity

2.2 Label elements
Labelling according to Regulation (EC) No 1272/2008
The product is classified and labelled according to the CLP regulation.

Hazard pictograms
GHS02 GHS07 GHS09

Signal word Danger

Hazard-determining components of labelling:
Distillates (petroleum), hydrotreated light heptane

Hazard statements
H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.
H315 Causes skin irritation.
H336 May cause drowsiness or dizziness.
H411 Toxic to aquatic life with long lasting effects.

Precautionary statements
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P251 Pressurized container: Do not pierce or burn, even after use.
P211 Do not spray on an open flame or other ignition source.
P261 Avoid breathing mist/vapours/spray.
P280 Wear protective gloves / eye protection.
P264 Wash thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area.
P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P302+P352 IF ON SKIN: Wash with plenty of water.
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

<table>
<thead>
<tr>
<th>4.1 Description of first aid measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>General information:</td>
</tr>
<tr>
<td>Immediately remove any clothing soiled by the product.</td>
</tr>
<tr>
<td>Take affected persons out into the fresh air.</td>
</tr>
<tr>
<td>After inhalation:</td>
</tr>
<tr>
<td>Supply fresh air; consult doctor in case of complaints.</td>
</tr>
<tr>
<td>Provide oxygen treatment if affected person has difficulty breathing.</td>
</tr>
<tr>
<td>After skin contact:</td>
</tr>
<tr>
<td>Immediately wash with water and soap and rinse thoroughly.</td>
</tr>
<tr>
<td>If skin irritation continues, consult a doctor.</td>
</tr>
<tr>
<td>After eye contact:</td>
</tr>
<tr>
<td>Remove contact lenses if worn.</td>
</tr>
<tr>
<td>Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.</td>
</tr>
</tbody>
</table>
· **After swallowing:**
  Unlikely route of exposure.
  Rinse out mouth and then drink plenty of water.
  Do not induce vomiting; call for medical help immediately.
  A person vomiting while laying on their back should be turned onto their side.

**4.2 Most important symptoms and effects, both acute and delayed**

- Frostbite
- Irritating to eyes and skin.
- Coughing
- Breathing difficulty
- Dizziness
- Nausea

**Hazards**
- Danger of pulmonary oedema.
- Danger of pneumonia.
- Danger of impaired breathing.

**4.3 Indication of any immediate medical attention and special treatment needed**

- If swallowed, gastric irrigation with added, activated carbon.
- If swallowed or in case of vomiting, danger of entering the lungs.
- Medical supervision for at least 48 hours.
- If necessary oxygen respiration treatment.
- Later observation for pneumonia and pulmonary oedema.
- Treat frost-bitten areas appropriately.

---

**SECTION 5: Firefighting measures**

**5.1 Extinguishing media**

- **Suitable extinguishing agents:**
  CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- **For safety reasons unsuitable extinguishing agents:** Water with full jet

**5.2 Special hazards arising from the substance or mixture**

- Formation of toxic gases is possible during heating or in case of fire.
- Danger of receptacles bursting because of high vapour pressure when heated.

**5.3 Advice for firefighters**

- **Protective equipment:**
  Wear self-contained respiratory protective device.
  Wear fully protective suit.

- **Additional information**
  Eliminate all ignition sources if safe to do so.
  Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
  Cool endangered receptacles with water fog or haze.

---

**SECTION 6: Accidental release measures**

**6.1 Personal precautions, protective equipment and emergency procedures**

- Use respiratory protective device against the effects of fumes/dust/aerosol.
- Particular danger of slipping on leaked/spilled product.
- Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
Keep away from ignition sources.
Protect from heat.

6.2 Environmental precautions:
Do not allow to enter sewers/ surface or ground water.
Inform respective authorities in case of seepage into water course or sewage system.

6.3 Methods and material for containment and cleaning up:
Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders).
Pick up mechanically.
Dispose contaminated material as waste according to item 13.
Do not flush with water or aqueous cleansing agents
Send for recovery or disposal in suitable receptacles.

6.4 Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Use only in well ventilated areas.
Keep away from heat and direct sunlight.
Avoid splashes or spray in enclosed areas.

Information about fire - and explosion protection:
Protect against electrostatic charges.
Emergency cooling must be available in case of nearby fire.
Keep ignition sources away - Do not smoke.
Do not spray onto a naked flame or any incandescent material.
Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.

7.2 Conditions for safe storage, including any incompatibilities
Storage:
Requirements to be met by storerooms and receptacles:
Store in a cool location.
Observe official regulations on storing packagings with pressurised containers.
Provide ventilation for receptacles.
Avoid storage near extreme heat, ignition sources or open flame.

Information about storage in one common storage facility:
Store away from oxidising agents.

Further information about storage conditions:
Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.

7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.
### 8.1 Control parameters

#### Ingredients with limit values that require monitoring at the workplace:

</tbody>
</table>

**DNELs** No further relevant information available.

**PNECs** No further relevant information available.

**Additional information**: The lists valid during the making were used as basis.

### 8.2 Exposure controls

**Personal protective equipment:**

**General protective and hygienic measures:**
The usual precautionary measures are to be adhered to when handling chemicals. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.

**Respiratory protection:**
Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. Use suitable respiratory protective device when high concentrations are present. For spills, respiratory protection may be advisable.

(Contd. on page 7)
Protection of hands:

- **Protective gloves**

  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

  - **Material of gloves**
    
    The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

  - **Penetration time of glove material**
    
    The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

- **Safety glasses**

Body protection:

- **Protective work clothing**

Limitation and supervision of exposure into the environment

- **No further relevant information available.**

Risk management measures

- **See Section 7 for additional information.**
- **No further relevant information available.**

### SECTION 9: Physical and chemical properties

- **9.1 Information on basic physical and chemical properties**
- **General Information**
  - **Appearance:**
    
    - **Form:** Aerosol
    - **Colour:** Translucent
    - **Odour:** Solvent-like
    - **Odour threshold:** Not determined.
    - **pH-value:** Not determined.
  
  - **Change in condition**
    
    - **Melting point/Melting range:** Not applicable, as aerosol.
    - **Boiling point/Boiling range:** Not applicable, as aerosol.
  
  - **Flash point:** Extremely flammable aerosol.
  
  - **Flammability (solid, gaseous):** Extremely flammable aerosol.
  
  - **Auto/Self-ignition temperature:** 210 °C
  
  - **Decomposition temperature:** Not determined.
### SECTION 10: Stability and reactivity

- **10.1 Reactivity**
- **10.2 Chemical stability**
  - **Thermal decomposition / conditions to be avoided:**
    Danger of receptacles bursting because of high vapour pressure when heated.
- **10.3 Possibility of hazardous reactions**
  Develops readily flammable gases/fumes.
  Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.
  Extremely flammable aerosol.
  Used empty containers may contain product gases which form explosive mixtures with air.
  Reacts with strong oxidising agents.
  Toxic fumes may be released if heated above the decomposition point.
- **10.4 Conditions to avoid**
  Keep ignition sources away - Do not smoke.
  Keep away from heat and direct sunlight.
  Store away from oxidising agents.
- **10.5 Incompatible materials:** No further relevant information available.
- **10.6 Hazardous decomposition products:** Carbon monoxide and carbon dioxide
SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity:

LD/LC50 values relevant for classification:

<table>
<thead>
<tr>
<th></th>
<th>Oral LD50</th>
<th>Dermal LD50</th>
</tr>
</thead>
<tbody>
<tr>
<td>64742-47-8 Distillates (petroleum), hydrotreated light</td>
<td>&gt; 5000 mg/kg (rat)</td>
<td>&gt;2000 mg/kg (rabbit)</td>
</tr>
<tr>
<td>142-82-5 heptane</td>
<td>&gt; 5000 mg/kg (rat) (Estimate)</td>
<td></td>
</tr>
</tbody>
</table>

Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- on the eye: Irritating effect.
- Sensitisation: No sensitising effects known.

Additional toxicological information:
- Irritant
- Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.
- The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Acute effects (acute toxicity, irritation and corrosivity):
- Vapours have narcotic effect.
- Irritating to skin.
- May be fatal if swallowed and enters airways.
- Repeated dose toxicity: May cause damage to organs through prolonged or repeated exposure.

SECTION 12: Ecological information

12.1 Toxicity
- Aquatic toxicity: Toxic for aquatic organisms

12.2 Persistence and degradability
- No further relevant information available.

12.3 Bioaccumulative potential
- No further relevant information available.

12.4 Mobility in soil
- No further relevant information available.

12.5 Ecotoxicological effects
- Remark: Toxic for fish

Additional ecological information:
- General notes:
- Do not allow product to reach ground water, water course or sewage system.
- Danger to drinking water if even small quantities leak into the ground.
- Also poisonous for fish and plankton in water bodies.
- Toxic for aquatic organisms
- Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

12.5 Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.
SECTION 13: Disposal considerations

· 13.1 Waste treatment methods
  · Recommendation
  Contact waste processors for recycling information.
  Must not be disposed together with household garbage. Do not allow product to reach sewage system.
  The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.
· Uncleaned packaging:
  · Recommendation: Disposal must be made according to official regulations.

SECTION 14: Transport information

· 14.1 UN-Number
  · DOT, ADR, IMDG, IATA
  UN1950
· 14.2 UN proper shipping name
  · Limited Quantity for packages less than 30 kg (66 lb) and inner packagings less than 1 L (0.3 gal).

SECTION 15: Regulatory information

· 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
  · Carcinogenic Categories
    - IARC (International Agency for Research on Cancer)
      None of the ingredients are listed.
    - TLV (Threshold Limit Value established by ACGIH)
      None of the ingredients are listed.
  · Other regulations, limitations and prohibitive regulations
    - Substances of very high concern (SVHC) according to REACH, Article 57
      None of the ingredients are listed.
  · 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases
  H225  Highly flammable liquid and vapour.
  H280  Contains gas under pressure; may explode if heated.
  H304  May be fatal if swallowed and enters airways.
  H315  Causes skin irritation.
  H336  May cause drowsiness or dizziness.
  H400  Very toxic to aquatic life.
  H410  Very toxic to aquatic life with long lasting effects.
