1 Identification

- **Product identifier**
  - **Trade name:** Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol
  - **Article number:** No other identifiers
- **Recommended use and restriction on use**
  - **Recommended use:** Penetrating oil, Lubricant
  - **Restrictions on use:** See Sections 8 and 10 for further information.
- **Details of the supplier of the Safety Data Sheet**
  - **Manufacturer/Supplier:** Synco Chemical Corporation
    - 24 DaVinci Dr., P.O. Box 405
    - Bohemia, NY 11716
    - Telephone: 631-567-5300
    - Email: info@super-lube.com
  - **Emergency telephone number:** ChemTel
    - 1-800-255-3924 (US/Canada), 1-813-248-0585 (International), 1-300-954-583 (Australia),
      0-800-591-6042 (Brazil), 400-120-0751 (China), 000-800-100-4086 (India), 800-099-0731 (Mexico)

2 Hazard(s) identification

- **Classification of the substance or mixture**
  - **Flame, Gas cylinder**
    - **GHS02** H222 Extremely flammable aerosol.
  - **Gas cylinder**
    - **GHS04** H280 Contains gas under pressure; may explode if heated.
  - **Health hazard**
    - **GHS08** H304 May be fatal if swallowed and enters airways.
    - **GHS07** H315 Causes skin irritation.
    - **STOT SE 3** H336 May cause drowsiness or dizziness.

- **Additional information:**
  - There are no other hazards not otherwise classified that have been identified.
  - 0 percent of the mixture consists of ingredient(s) of unknown toxicity.
Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

- Label elements
  - GHS label elements
    The product is classified and labeled according to the Globally Harmonized System (GHS).
  - Hazard pictograms
    ![Hazard pictograms]
    GHS02 GHS04 GHS07 GHS08

- Signal word Danger

- Hazard-determining components of labeling:
  Distillates (petroleum), hydrotreated light heptane

- Hazard statements
  H222 Extremely flammable aerosol.
  H280 Contains gas under pressure; may explode if heated.
  H315 Causes skin irritation.
  H336 May cause drowsiness or dizziness.
  H304 May be fatal if swallowed and enters airways.

- Precautionary statements
  P210 Keep away from heat, sparks, open flames, and hot surfaces. - No smoking.
  P251 Pressurized container: Do not pierce or burn, even after use.
  P211 Do not spray on an open flame or other ignition source.
  P261 Avoid breathing mist/vapors/spray.
  P280 Wear protective gloves and eye protection.
  P264 Wash thoroughly after handling.
  P271 Use only outdoors or in a well-ventilated area.
  P301+P310 If swallowed: Immediately call a poison center/doctor.
  P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
  P332+P313 If skin irritation occurs: Get medical advice/attention.
  P331 Do NOT induce vomiting.
  P302+P352 If on skin: Wash with plenty of water.
  P362+P364 Take off contaminated clothing and wash it before reuse.
  P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 122 °F (50 °C).
  P403 Store in a well-ventilated place.
  P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

- Hazard description:

- WHMIS-symbols:
  A - Compressed gas
  B5 - Flammable aerosol
  D2B - Toxic material causing other toxic effects

(Contd. of page 1)
Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

- Classification system:
- NFPA ratings (scale 0 - 4)
  - Health = 1
  - Fire = 3
  - Reactivity = 3

- HMIS-ratings (scale 0 - 4)
  - Health = 1
  - Fire = 3
  - Reactivity = 3

- Other hazards
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.

3 Composition/information on ingredients

- Chemical characterization: Mixtures
- Description: Mixture of the substances listed below with nonhazardous additions.

- Additional information:
  For the listed ingredients, the identity and exact percentages are being withheld as a trade secret.

4 First-aid measures

- Description of first aid measures
- General information:
  - Immediately remove any clothing soiled by the product.
  - Take affected persons out into the fresh air.
- After inhalation:
  - Supply fresh air; consult doctor in case of complaints.
  - Provide oxygen treatment if affected person has difficulty breathing.
- After skin contact:
  - Immediately wash with water and soap and rinse thoroughly.
  - If skin irritation continues, consult a doctor.
- After eye contact:
  - Remove contact lenses if worn.

(Contd. on page 4)
Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

40.1.3

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- **After swallowing:**
  - Unlikely route of exposure.
  - Rinse out mouth and then drink plenty of water.
  - Do not induce vomiting; immediately call for medical help.
  - A person vomiting while lying on their back should be turned onto their side.

- **Information for doctor:**
  - **Most important symptoms and effects, both acute and delayed**
    - Frostbite
    - Irritating to eyes and skin.
    - Coughing
    - Breathing difficulty
    - Dizziness
    - Nausea
  - **Danger**
    - Danger of pulmonary edema.
    - Danger of pneumonia.
    - Danger of impaired breathing.

- **Indication of any immediate medical attention and special treatment needed**
  - If swallowed, gastric irrigation with added, activated carbon.
  - If swallowed or in case of vomiting, danger of entering the lungs.
  - Medical supervision for at least 48 hours.
  - If necessary oxygen respiration treatment.
  - Later observation for pneumonia and pulmonary edema.
  - Treat frost-bitten areas appropriately.

5 Fire-fighting measures

- **Extinguishing media**
  - **Suitable extinguishing agents:**
    - CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- **For safety reasons unsuitable extinguishing agents:** Water stream.

- **Special hazards arising from the substance or mixture**
  - Formation of toxic gases is possible during heating or in case of fire.
  - Danger of receptacles bursting because of high vapor pressure if heated.

- **Advice for firefighters**
  - **Protective equipment:**
    - Wear self-contained respiratory protective device.
    - Wear fully protective suit.

- **Additional information**
  - Eliminate all ignition sources if safe to do so.
  - Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
  - Cool endangered receptacles with water fog.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  - Use respiratory protective device against the effects of fumes/dust/aerosol.
Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

Particular danger of slipping on leaked/spilled product.
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation.
Keep away from ignition sources.
Protect from heat.

Environmental precautions:
Do not allow to enter sewers/ surface or ground water.
Inform respective authorities in case of seepage into water course or sewage system.

Methods and material for containment and cleaning up:
Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders).
Pick up mechanically.
Dispose contaminated material as waste according to item 13.
Do not flush with water or aqueous cleansing agents
Send for recovery or disposal in suitable receptacles.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7 Handling and storage

Handling:
- Precautions for safe handling
  Use only in well ventilated areas.
  Keep away from heat and direct sunlight.
  Avoid splashes or spray in enclosed areas.

Information about protection against explosions and fires:
Protect against electrostatic charges.
Emergency cooling must be available in case of nearby fire.
Keep ignition sources away - Do not smoke.
Do not spray on a naked flame or any incandescent material.
Pressurized container: protect from sunlight and do not expose to temperatures exceeding 120 °F / 49 °C, i.e. electric lights. Do not pierce or burn, even after use.

Conditions for safe storage, including any incompatibilities

Storage:
- Requirements to be met by storerooms and receptacles:
  Store in a cool location.
  Observe official regulations on storing packagings with pressurized containers.
  Provide ventilation for receptacles.
  Avoid storage near extreme heat, ignition sources or open flame.
- Information about storage in one common storage facility:
  Store away from oxidizing agents.

Further information about storage conditions:
Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.

Specific end use(s) No further relevant information available.
8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.

- Control parameters

- Additional information: The lists that were valid during the creation were used as basis.

- Exposure controls

- Personal protective equipment:

- General protective and hygienic measures:
  The usual precautionary measures for handling chemicals should be followed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.

- Engineering controls: No further relevant information available.
Safety Data Sheet
according to (EU) 2015 / 830 and OSHA GHS

Revision: September 22, 2020

Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

- Breathing equipment:
  Not required under normal conditions of use.
  Use suitable respiratory protective device in case of insufficient ventilation.
  Use suitable respiratory protective device when high concentrations are present.
  For spills, respiratory protection may be advisable.

- Protection of hands:
  Protective gloves
  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection:
  Safety glasses

- Body protection: Protective work clothing

- Limitation and supervision of exposure into the environment
  No further relevant information available.

9 Physical and chemical properties

- Information on basic physical and chemical properties
  General Information
  - Appearance:
    - Form: Aerosol
    - Color: Translucent
    - Odor: Solvent-like
    - Odor threshold: Not determined.
  - pH-value: Not determined.
  - Change in condition
    - Melting point/Melting range: Not applicable, as aerosol.
    - Boiling point/Boiling range: Not applicable, as aerosol.
  - Flash point: Extremely flammable aerosol.
  - Flammability (solid, gaseous): Extremely flammable aerosol.
  - Auto-ignition temperature: 210 °C (410 °F)
10 Stability and reactivity

- Reactivity
- Chemical stability
- Thermal decomposition / conditions to be avoided:
  Danger of receptacles bursting because of high vapor pressure if heated.
- Possibility of hazardous reactions
  Develops readily flammable gases / fumes.
  Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomized.
  Extremely flammable aerosol.
  Used empty containers may contain product gases which form explosive mixtures with air.
  Reacts with strong oxidizing agents.
  Toxic fumes may be released if heated above the decomposition point.
- Conditions to avoid
  Keep ignition sources away - Do not smoke.
  Keep away from heat and direct sunlight.
  Store away from oxidizing agents.
- Incompatible materials: No further relevant information available.
- Hazardous decomposition products: Carbon monoxide and carbon dioxide

(Contd. on page 9)
11 Toxicological information

- Information on toxicological effects
  - Acute toxicity:
    - LD/LC50 values that are relevant for classification:
      - 64742-47-8 Distillates (petroleum), hydrotreated light
      | Oral LD50       | > 5000 mg/kg (rat) |
      | Dermal LD50     | >2000 mg/kg (rabbit) |
      - 142-82-5 heptane
      | Oral LD50       | > 5000 mg/kg (rat) (Estimate) |
      | Inhalative LC50/4h | 103 mg/l (rat) |
  - Primary irritant effect:
    - on the skin: Irritant to skin and mucous membranes.
    - on the eye: Irritating effect.
    - Sensitization: No sensitizing effects known.
  - Additional toxicological information:
    Irritant
    Inhalation of concentrated vapors as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.
  - Carcinogenic categories
    - NTP (National Toxicology Program)
      None of the ingredients is listed.
    - OSHA-Ca (Occupational Safety & Health Administration)
      None of the ingredients is listed.

12 Ecological information

- Toxicity
  - Aquatic toxicity: Toxic for aquatic organisms
  - Persistence and degradability: No further relevant information available.
  - Behavior in environmental systems:
    - Bioaccumulative potential: No further relevant information available.
    - Mobility in soil: No further relevant information available.
  - Ecotoxic effects:
    - Remark: Toxic for fish

(Contd. on page 10)
40.1.3 Additional ecological information:

· General notes:
  Do not allow product to reach ground water, water course or sewage system.
  Danger to drinking water if even small quantities leak into the ground.
  Also poisonous for fish and plankton in water bodies.
  Toxic for aquatic organisms

Results of PBT and vPvB assessment

· PBT: Not applicable.
· vPvB: Not applicable.

Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods
  Recommendation:
  Contact waste processors for recycling information.
  Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
  The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

· Uncleaned packagings:
  Recommendation: Disposal must be made according to official regulations.

14 Transport information

· UN-Number
· DOT, ADR, IMDG, IATA
· UN proper shipping name

Limited Quantity for packages less than 30 kg (66 lb) and inner packagings less than 1 L (0.3 gal).

· DOT Aerosols, flammable
· ADR 1950 AEROSOLS, ENVIRONMENTALLY HAZARDOUS
· IMDG AEROSOLS (HEPTANES), MARINE POLLUTANT
· IATA AEROSOLS, flammable

· Transport hazard class(es)
· DOT
