5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents:
CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

For safety reasons unsuitable extinguishing agents: Water stream.

Special hazards arising from the substance or mixture
Formation of toxic gases is possible during heating or in case of fire.
Danger of receptacles bursting because of high vapor pressure if heated.

Advice for firefighters

Protective equipment:
Wear self-contained respiratory protective device.
Wear fully protective suit.

Additional information:
Eliminate all ignition sources if safe to do so.
Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
Cool endangered containers with water fog.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures
Use respiratory protective device against the effects of fumes/dust/aerosol.  
Particular danger of slipping on leaked/spilled product.  
Wear protective equipment. Keep unprotected persons away.  
Ensure adequate ventilation.  
Keep away from ignition sources.  
Protect from heat.  

Environmental precautions  
Do not allow to enter sewers/ surface or ground water.  
Inform respective authorities in case of seepage into water course or sewage system.  

Methods and material for containment and cleaning up  
Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders).  
Do not flush with water or aqueous cleansing agents  
Send for recovery or disposal in suitable receptacles.  

Reference to other sections  
See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.  

7 Handling and storage  

Handling  
Precautions for safe handling:  
Keep out of reach of children.  
Use only in well ventilated areas.  
Keep away from heat and direct sunlight.  
Avoid splashes or spray in enclosed areas.  

Information about protection against explosions and fires:  
Protect against electrostatic charges.  
Emergency cooling must be available in case of nearby fire.  
Keep ignition sources away - Do not smoke.  
Do not spray on a naked flame or any incandescent material.  
Pressurized container: protect from sunlight and do not expose to temperatures exceeding 120 °F / 49 °C,  
i.e. electric lights. Do not pierce or burn, even after use.  

Conditions for safe storage, including any incompatibilities  
Requirements to be met by storerooms and receptacles:  
Observe official regulations on storing packagings with pressurized containers.  
Avoid storage near extreme heat, ignition sources or open flame.  

Information about storage in one common storage facility: Store away from oxidizing agents.  
Further information about storage conditions:  
Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.  
Specific end use(s) No relevant information available.
